# How many days can supermarket lockers be stored

## Overview

---

How should food be stored in a supermarket?

Food should be stored correctly in a supermarket to maintain the quality of the goods as well as prevent any foodborne illnesses. There must be stringent systems in place when it comes to storage, including: Storing food at the right temperature. Refrigerators should be kept at or below 5°C and frozen food at or below -18°C.

What is safe food storage?

Safe food storage is the act of adhering to food storage guidelines set by the local government. Establishing proper food storage procedures is crucial in maintaining food safety. Improperly stored food poses the risk of foodborne illnesses and costly ramifications, such as fines, penalties, product recalls, and total plant shutdown.

Why is it important to store food safely?

Storing food safely helps to reduce food waste and keep you and your household safe from food poisoning. There are a number of things you need to be aware of to store food safely. Storing food properly helps to: Always check food labels so you're sure about the right way to store your food. Check the food label to confirm:.

How long can you keep food in a freezer?

Freezers should always be kept at -18 °C or less. All freezers should have a star rating, so consult your freezer's handbook: As a general rule and to maintain the quality, food should not be stored in a freezer for longer than 6 months (provided that your freezer is suitable for storing foods for this length of time).

How long can you freeze food after expiration date?

As a general rule and to maintain the quality, food should not be stored in a

freezer for longer than 6 months (provided that your freezer is suitable for storing foods for this length of time. See star ratings above). Can I freeze foods which have passed their “use by” date?

No. Food should only be frozen if they are within the 'use by' date.

Should food be stored in a fridge or freezer?

There should be separate storage fridges and freezers for food used as ingredients in preparing food that's freshly prepared on the premises such as rotisserie chickens, pies and breads. The instructions on the packaging of any foods or raw ingredients regarding chilling must be followed.
