What does hydroma do?

A pioneer in the discovery, research, exploration and operation of natural hydrogen in Mali and worldwide, Hydroma also actively develops green hydrogen and ammonia production, storage, transport and distribution projects in West Africa and Canada for local use and massive exports toward Europe and international markets.

Who is hydroma Inc?

Founded by a Malian entrepreneur, Hydroma Inc is a Canadian leader in the development of large scale clean hydrogen projects with a strong focus on the African Continent.

Is hydroma a green hydrogen producer?

Currently the company runs hydrogen extraction operations in Mali, but believes that there are many more untapped wells in Australia and Canada. Hydroma is also positioning itself to become the largest green hydrogen producer in West Africa. Green hydrogen is produced from renewable energy sources, usually solar, wind or hydro power.

When did Petroma Inc become Hydroma Inc?

Petroma Inc becomes Hydroma Inc in 2019. Natural hydrogen is included in the German national hydrogen strategy. Chapman Petroleum Engineering publishes the NI 51 101 report on the estimated reserves of Hydroma Inc's natural hydrogen reserves in 2020.

What is hydroma's role in the West African Big Green Deal?

Convinced of the potential of natural and green hydrogen as enablers to accelerate sustainable development and growth worldwide, Hydroma is a key player in the establishment of a robust regional natural and green hydrogen economy via its West African Big Green Deal Initiative and Foundation

(W.A.B.G.D.).
