Iceland aera energy llc

Overview

Aera Energy LLC (or simply Aera) is a natural gas, oil exploration and production company started as a joint venture between Shell plc (through Shell USA) and Mobil (which later merged to form ExxonMobil). Headquartered in Bakersfield, California, Aera Energy LLC is a California limited liability company, and one of California's largest oil and natural gas producers, with an approximate 2015 revenues of over \$2 billion. Aera is operated as a stand-alone company through its board of managers. In August 2022, IKAV, a European investment company, announced it was buying Aera from Shell and ExxonMobil. In July 2024, California Resources Corporation completed a \$2.1 billion, all-stock purchase acquisition of Aera.

Most of Aera's production is located in the Central Valley. The company also has oil field operations in Kern, Santa Barbara, and counties and has begun the permitting process to redevelop the East Cat Canyon oilfield in northern Kern. Aera produces approximately 126,300 barrels of oil and 32 million cubic feet of natural gas each day, and has proved oil and natural gas reserves equivalent to approximately 536 million barrels of oil. Aera produces nearly 25 percent of California's oil and natural gas. The work force needs of Aera are provided by Aera Energy Services Company (Aera Services), a California corporation. Aera and Aera Services employ about 1,100 people and hundreds of contractor companies. The company began operating as Aera Energy LLC on June 1, 1997, and consists of the California onshore and offshore exploration and production assets previously operated by CalResources LLC (a former affiliate), Exploration & Producing US Inc. (now an affiliate), and Aera Energy Services Company.

Belridge Project In 2017, Aera Energy launched its plan to build California's largest solar field in partnership with GlassPoint Solar. This initiative called Belridge Project covers 770 acres and it is constructed to assist the company's oil extraction process and make it more sustainable. partnership with GlassPoint Solar. This initiative called Belridge Project covers 770 acres and it is constructed to assist the company's oil extraction process and make it more sustainable. Coles Levee Ecosystem Preserve The Coles Levee Ecosystem Preserve, located about 20 miles (32 km) southwest of , consists of 6,059 acres (24.52 km) of habitat. More than a dozen rare, threatened and endangered birds, animals and plant life can be found in the preserve. The preserve encompasses the last two miles (3 km) of riparian habitat along the , where it drains into Buena Vista Lake. Established in 1992 by and the , the preserve was acquired by Aera in 1998. The preserve is largely riparian habitat and is surrounded by active oil fields (the North Coles Levee Oil Field and South Coles Levee Oil Field, as well as the to the west, operated by California Resources Corporation. Real estate development As oil and gas production declines in the , Aera is planning to develop some property holdings in and counties for residential, commercial, and recreation.

A lawsuit, filed October 2001, alleged Aera Energy allowed 600 million barrels of oil wastewater to seep into the subsurface aquifers of the Starrh Farms after putting oil drilling waste into a mile of unlined percolation ponds near the farm. In 2004, a Kern County Superior Court jury awarded the Fred Starrh family more than \$7 million, though they originally sought \$3 to \$4 billion fo. A lawsuit, filed October 2001, alleged Aera Energy allowed 600 million barrels of oil wastewater to seep into the subsurface aquifers of the Starrh Farms after putting oil drilling waste into a mile of unlined percolation ponds near the farm. In 2004, a Kern County Superior Court jury awarded the Fred Starrh family more than \$7 million, though they originally sought \$3 to \$4 billion for damages and cleanup. Both sides appealed to the , Fifth District. The Court granted a partial directed verdict and ordered a new trial. In 2009, Starrh refiled the lawsuit in the Superior Court. There were two subsequent jury trials, in 2009 and 2013. Aera Energy was found liable and ordered to pay \$9 million. Aera Energy is also involved in a legal tussle with the state of California over its ban on , an oil field extraction technique. In 2021, Aera filed a lawsuit against the state after it denied 49 of its fracking permit applications based on climate change concerns. .

In 2002 Aera's won the prestigious North American Maintenance Excellence (NAME) Award for its maintenance and reliability program and results. In 2004 Aera's was awarded a NAME Award. Aera is the first oil exploration and production company to win the award previously given only to manufacturing organizati. In 2002 Aera's won the prestigious North American Maintenance Excellence (NAME) Award for its maintenance and reliability program and results. In 2004 Aera's was awarded a NAME Award. Aera is the first oil exploration and production company to win the award previously given only to manufacturing organizations. In 2011 Aera's development team was awarded

the (AME) Manufacturing Excellence Award. Aera is the first energy company to receive the award.

Aera Energy is depicted as "Shore Oil" in the 2019 American film, , inspired by true events depicted in the pollution lawsuits by Starrh Farms.
