### Who is Jinko Solar?

JINKO SOLAR CO., LTD. Jinko Solar Co., Ltd. is a globally renowned and highly innovative solar technology company. JinkoSolar's products serve over 180 countries and regions worldwide, catering to more than 3,000 customers. For several years, it has maintained its position as the global leader in module shipments.

### Where is JinkoSolar based?

It has a total of 14 global production bases in China, the United States, Malaysia and Vietnam. JinkoSolar expects its annual production capacity for mono wafer, solar cell and solar module to reach 75.0 GW, 75.0 GW and 90.0 GW, respectively, by the end of 2023.

### How many employees does Jinko Solar have?

Jinko Solar has more than 1,000 R&D and technical employees and has won many honors such as "National Enterprise Technology Center", "National Technology Innovation Demonstration Enterprise", "Champion of Manufacturing", and has formulated many international and domestic industry standards such as IEC.

### Why should you choose Jinko Solar?

JinkoSolar not only concentrates on enhancing the efficiency of its N-type TOPCon cells and modules, but also continuously focuses on product quality in terms of reliability, making its TOPCon products the most reliable, with the lowest-risk technology.

### Where is Jinko power station located?

Located in West Java, the project, constructed by PowerChina subsidiary Hubei Engineering on a site of 80 hectares, has an installed capacity of 100.78MW and is not only the country's largest land-based PV power station in terms of

installed capacity, but also represents another important milestone for Jinko in the overseas market.

Why did JinkoSolar choose Tiger neo modules?

It is in this challenging environment that JinkoSolar's Tiger Neo modules were selected as the key modules for the project with the advanced N-type TOPCon technology, due to their outstanding low degradation rates and high reliability.

## Making nuclear energy cheaper than coal in Indonesia

The government of Indonesia is supporting a project to build a 500 MW nuclear fission power plant at Kelasa Island based on a highly innovative design. Advocates claim wind and solar power generation is cheaper. But that has not worked out, in practice, simply because those energy sources are dispersed and intermittent.

## Jack Yang

100% solar energy in Indonesia Storage is required to support solar energy for overnight and longer periods. Batteries can economically provide energy storage for a few hours. However, Pumped Hydro Energy Storage (PHES) is strongly dominant for large-scale energy storage because

it is far cheaper. For example, the Snowy 2.0 pumped hydro system

## Solar & Storage Live Indonesia 2025 , ICE Indonesia

Back Solar & Storage Live Indonesia 2025, the latest addition to the world's largest portfolio of clean energy events, will be a forward-thinking, dynamic, and innovative exhibition that showcases the cutting-edge technologies driving Indonesia's transition to a greener, smarter, and more decentralised energy system.

## Top 10 Solar Energy Companies in Indonesia [Updated 2024]

PT ATW Solar Indonesia (ATW Solar) is an independent Engineering Procurement Construction (EPC) company specialising in solar photovoltaic complete system integration and energy storage solutions. One of the fastest growing companies in Indonesia, they currently have a portfolio of over 30 MWp solar projects, only 4 years into operation.
