Does Indonesia's mining industry need bauxite?

Indonesia's mining industry is rapidly expanding on demand for the minerals needed to help power the global energy transition, like nickel, cobalt and bauxite. But experts say it's coming at a cost for thousands of communities across the vast archipelago.

Why do Indonesia's small islands need special protection from mining?

The impacts and mining continue despite a March 2024 ruling by Indonesia's constitutional court that small islands such as Kabaena require special protection from abnormally dangerous activities, including mining, as they threaten ecosystems in vulnerable areas.
