Install your own solar photovoltaic power generation

Overview

Yes, it is fully legal to install DIY solar panels in the UK on your own. In some areas, planning permission may be required but, in most regions, there are no laws against it. Can I install my own solar panels?

Yes, you can install your own solar panels. Sunstore Solar can provide professional installation, but we appreciate some people like to get stuck into a project. We designed our solar panel kits specifically for DIY solar panel installation projects. And what better project than providing energy security for your family or business?

.

How do I start a DIY solar panel installation?

Kicking off your DIY solar panel installation begins with detailed planning and preparation. Calculate your home's energy needs to identify the required size and number of panels. Assess your roof for suitability – orientation, shading, and structural integrity are all key factors. Become familiar with local codes and secure any necessary permits.

Can you build your own solar panels?

To get straight to the point, yes, you can build your own solar panels, or at least partially, depending on the craftsmanship of each person. The process DIY includes sizing the solar panel system, choosing which components suits your needs, mounting and installing the solar panels, the solar inverter and safety disconnects.

Should you start a DIY project with solar panels?

Beginning a DIY project with solar panels like EcoFlow Solar Panels marks a significant step towards securing renewable energy for your home. To install your own solar panel system, you must first understand such a project's legal and practical aspects.

Should I buy a DIY solar panel kit?

To save cash, you may be tempted to buy a DIY solar panel kit and fit your panels by yourself. DIY solar panels are widely available and many are excellent value compared with the cost of professional installation. For example, a full 3.4kW 10-panel kit from Plug-in Solar costs £4,728.

Where can I buy DIY solar panels?

Several companies specialise in selling DIY solar panel kits to the public. Plug-in Solar is particularly easy to follow, and offers a wide range of kits and step-by-step DIY guides, plus accessories such as solar panel mounting kits. Renology, Select Solar and Sunstore Solar are also well worth a browse.
