

Solar Energy South Africa

Is photovoltaic panel insurance necessary

Overview

Solar panel insurance is crucial for homeowners and businesses investing in renewable energy. Does homeowners insurance cover solar panels?

Usually, homeowner's solar insurance packages cover all types of solar panels: monocrystalline, polycrystalline PV, or thin film solar panels. The insurance protects your solar rooftop against common risks, such as fire, hail, lightning, storm damage, or theft. The claim limit for solar panel coverage varies depending on the policy.

What is solar panel insurance & how does it work?

Solar panel insurance shields homeowners from financial losses due to damage, theft, or other unforeseen events affecting their solar energy systems. Let's dive into solar panel insurance in the UK and see how it can keep your roof (and your bank account) happy. What is not covered by solar panel insurance?

.

Do I need insurance if I have solar panels installed?

If you have solar panels installed on your home, it's important to have the right sort of insurance in place. In recent years, solar panels have become a familiar sight on rooftops across the UK. These eco-friendly additions are not only beneficial for the environment but can also lead to significant reductions in electricity bills.

Should I tell my home insurance provider if I have solar panels?

At Sunsave, we strongly recommend that you tell your home insurance provider once you have solar panels, just like you would after any other significant modification to your property. It may increase how much you pay for insurance, as solar panels can raise the value of your home.

Will my insurance cover a photovoltaic system?

Contact your insurer and ask whether your policy includes a photovoltaic system, preferably before you have the panels installed. Even if you're absolutely sure you'll be covered, you still need to notify your insurer.

Will solar panels affect my home insurance?

When you decide to install solar panels, it's imperative to inform your home insurer about the change. Solar panels can affect the rebuild value of your home, which is a critical factor in your insurance coverage. Your insurer can then advise you on any changes to the cost of your policy as a result of the installation.
