Is promoting photovoltaic panels a scam

Overview

Solar panel scams are fraudulent or deceptive practices that unethical companies or individuals employ to take advantage of homeowners. These frauds often combine elements of traditional door-to-door sales tactics with more modern contracting schemes. Scammers may misrepresent services, make false promises.

Solar panel scams come in different forms, each with its own set of deceptive tactics aimed at taking advantage of homeowners.

Protecting yourself from solar scams means taking a proactive approach and following a few key strategies.

When considering solar panel installation, look out for the following warning signs that may indicate a potential scam: 1. Promises of “free” solar panels or unrealistically low prices 2. Claims of affiliation with government.

Solar panel scams are fraudulent or deceptive practices that unethical companies or individuals employ to take advantage of homeowners. Are free solar panels a scam?

Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. If you’re considering whether solar energy is right for you, check out the Department of Energy’s guide for homeowners and learn more. Or check out the Department of Treasury’s guidance on clean energy.

Is going solar a scam?

It’s likely a scam. While there are some government-funded solar programs for households that qualify, “going solar” isn’t free. Honest businesses will tell you exactly how much it’ll cost to get and install solar panels. Here’s how to steer clear of the scams: Do some research.
