Is there a tax refund for energy storage cabinets

Overview

Will the government grant VAT relief on energy storage batteries?

In a much-needed move towards energy efficiency, the government has unveiled plans to grant VAT relief on the installation of energy storage batteries. This welcome move extends far beyond the previous VAT relief policy, which was limited to batteries installed concurrently with solar panels.

Can I get VAT relief for energy storage devices?

In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries. The relief applies to the services of installing energy-saving materials in residential accommodation and charitable buildings.

Are battery storage projects eligible for tax relief?

Tax relief eligibility for battery storage Projects The expanded tax relief encompasses three main categories of battery storage projects, each contributing towards the enhancement of the UK's energy grid's resilience and sustainability:

- Battery storage integrated with Solar PV: Enhancing solar energy generation with storage capabilities.

Why has the UK extended tax relief on battery storage systems?

“It’s fantastic that the government has extended tax relief on battery storage systems. The expanded VAT relief aligns with the UK’s commitment to reducing carbon emissions and promoting green energy solutions.

Do energy saving materials benefit from a VAT relief?

The installation of certain energy saving materials (ESMs) in residential accommodation benefits from a VAT relief, supporting households to improve the energy efficiency of their homes by reducing or removing VAT due on installations of qualifying materials. A history of the VAT relief can be found in Annex A.

Are battery energy storage systems exempt from VAT?

Effective 1 February 2024, the UK government has exempted retrofitted battery energy storage systems (BESS) from the 20% VAT. This recent and welcomed development means homeowners looking to upgrade their homes with energy storage now enjoy the same tax benefits as those incorporating energy-saving materials like heat pumps and roof-mounted solar.
