The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Isle of Man Help for Households; Revised tariff charges have been fixed by Manx Utilities and will be effective from 1 April 2024. You can find more information under Your Bill Explained.

At Nexiom Ltd, we are experts in the installation of renewable energy on the Isle of Man, including solar photovoltaic panels (Solar PV), which can be used to power your home, leading to savings on your electricity bills and reducing your carbon footprint.

The Isle of Man produces more solar than you would think, even on an overcast day, we are still reaping the rewards of free electricity! A small solar array of 8 panels can produce 3630kwhrs of electricity and this equates to an annual cost saving of £1034.55. On a larger scale, Manx Solar Electrical installed 228 Solar panels to Manx Telecom .

Manx Solar Electrical undertakes every aspect of the installation, including annual servicing plus all requisite maintenance work. With utility prices rising and green issues climbing the agenda, there has never been a better time to invest in alternative energy sources. Are electricity prices going up on the Isle of Man?

Electricity prices on the Isle of Man are to rise by 30%, Manx Utilities (MU) has announced. The increase will be applied in two increments of 15%, one in April and then one in July. The price hikes come on the heels of a 27.5% rise in Manx Gas bills, which was approved by Tynwald in October.

Who supplied electricity to the Isle of Man?

The Douglas Corporation and the Isle of Man Electricity Board were the sole suppliers on the island, apart from small areas supplied by the Manx Electric Railway Company. By the mid-1950s the Pulrose power station of the Douglas Corporation had a total generating capacity of 15.475 MW. This comprised the following plant: Coal-fired boilers:.

Who are Manx solar electrical?

You might be surprised! © 2019 Manx Solar Electrical Ltd. Registered in the Isle of Man No. 127 689C. VAT Registration No. 004 6877 73 The Isle of Man's leading renewable energy provider, Solar PV, Heat Pumps, EV Charging, Tesla Powerwall, Solar Edge, Stiebel Eltron, Dimplex, Mitsubishi, JA Solar.

Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

How many solar sites will Manx Utilities have?

Working with the Department of Infrastructure, Manx Utilities has identified over 30 sites suitable to deliver a total of 30 Megawatts of solar power on the public estate. The first phase of solar installations will see five projects being progressed with more sites to be identified to reach the 10 Megawatt objective.

What are Manx Utilities' new tariff charges?

Manx Utilities have fixed new electricity tariff charges that will be effective from 1 July 2023. * There is a charge for electricity units generated and sold to Manx Utilities. A penalty charge of £29.18 per kVA will be applied if you exceed your Agreed Service Capacity. Water and Sewerage Rates will receive a discount of 5% if paid by 30 June 2023.
