Ivory Coast enova power gmbh

Overview

What makes Enova a great company?

Sustainability, solidity, safety. ENOVA is all about reliability and creating value – for the environment and for our investors. In a constantly changing market, we adapt to circumstances and grow with them. Agile and confident, we're constantly opening up new areas of business and broadening the foundation of our company.

Is Enova a leader?

ENOVA has developed constantly throughout its 35-year history. It was a pioneer. Now it's a leader. When Helmuth A. Brümmer, now Chairman of the Supervisory Board of the ENOVA Group, founded ENOVA Energiesysteme GmbH & Co. KG in Leer, East Frisia, in 1989 he demonstrated one thing above all else: vision.

What makes Enova a pioneer in Germany?

Several projected offshore wind farms, which resulted in 1,500 MW of wind farm licences, made ENOVA a pioneer in Germany. Outstanding: RIFFGAT, a joint project with EWE, was the first commercial offshore wind farm to be completed in the North Sea. In 2014, 30 wind turbines were connected to the grid north-west of the island of Borkum.

Why should you choose Enova?

With their expertise and start-up mentality, the entire ENOVA team has aspired to this for over 35 years. Through our considerable expertise and active commitment over the decades, we've developed a range of wind energy services that set standards in the industry. We have successfully planned, projected and developed numerous wind farms.

Who are the top management of Enova group?

Hauke Brümmer (Chief Executive Officer), Hendrik Bösch (Chief Operating

Officer) and Björn Burau (Chief Financial Officer) form the top management of the ENOVA Group. Together, they are working to future-proof ENOVA, drive forward the company's strong growth and optimize the associated processes, structures and management tasks.
