The other option I'm aware of is this bolt on swing arm with a sotion motor, as well as amorage 72v battery, and a fardriver ND 96680 sinewave controller. I feel like with the second option I would get a lot more power for less money. amorage battery - Amorge 72v 32ah 200amp Lithium Battery Pack With Ant Bluetooth Bms

[Amorge? Custom batteries? : r/hyperebikes](https://www.reddit.com/r/hyperebikes/)

I saw either here or in r/ebikes people recommending amorge for a custom built battery, and I tried messaging them through the website, and through the web chat.. AND email, that was a few days ago and no response. Is this website/company legit. Does anyone have any other recommendations for acquiring a 72v 50+amp 25ah(min) triangle battery?
