Overview

Which energy company is building the largest Bess in Scotland?

The Toronto-based energy company has secured planning permission to install the systems which will supply power to Scotland and other regions in the UK. The largest BESS in Scotland will be built by Amp Energy. It will be known as the Scottish Green Battery Complex. When complete it will provide 800MW/1,600MWh of battery storage.

What is a 'Bess' & how will it impact Scotland?

Apartura said of the planned Auchentiber Road BESS: “When it comes online, it will make a substantial contribution to the Scottish Government’s goal of generating 50% of Scotland's overall energy consumption from renewable sources, and by 2050 to have decarbonised its energy system almost completely.

What is the biggest Bess in Scotland?

This will be by far the biggest BESS in Scotland, let alone Europe. Minity BESS in Wiltshire is currently (in 2022) the largest in the UK. However the new BESS in Scotland will be well over five times as big at 800MW. The Scottish Green Battery Complex will provide grid stability and power management services across the central belt of Scotland.
