Jiyuan pp plastic photovoltaic hollow board

Overview

What is pp hollow board?

PP hollow boards (also known as corrugated plastic sheets, pp flute board sheets, fluteboard, pp flute boards and polyflute sheets), are two externally flat plastic sheets separated by small plastic beams perpendicular to them. It is made of high-density eco-friendly polypropylene. It is lighter and stronger than traditional plastic boards.

What is pp hollow board extrusion line?

GWELL, as China Plastic Extruder Supplier, PP Hollow Board Extrusion Line adopts PP hollow special single-screw extruder and double extruder for co-extrusion. Because PP hollow board is divided into white and black PP hollow board. Sometimes the middle of the board will be white. So China GWELL will use two extruders.

Where is Jiahong plastic technology company located?

Zhejiang Jiahong Plastic Technology Co., Ltd. is located at No. 3 Jiangchao Road, Dingqiao Town, Haining City, Zhejiang Province. EPE A company specializing in the production and processing of pearl cotton, hollow panels, solar photovoltaic positioning packaging, packaging bags, etc., has a complete and scientific quality management system.

Is hollow board environmentally friendly?

Environmentally friendly and non-toxic: Hollow board is an environmentally friendly material, non-toxic and non-polluting. It is made of recyclable thermoplastic polypropylene (PP) or polyethylene (HDPE) resin and can be recycled.

Is hollow board heat resistant?

Heat resistance: Hollow board is mainly made of polypropylene (PP) and has good heat resistance. It can be used under conditions of 90-100°C, and can

maintain good performance at higher temperatures (such as around 120°C for reinforced hollow board).

What are the characteristics of hollow board materials?

The characteristics of hollow board materials can be summarized as follows:

Lightweight and durable: Hollow board adopts hollow structure design, low density, so it is light, but at the same time has good strength and durability. This material can withstand high-intensity impact and is not easy to deform or break.

Jiyuan pp plastic photovoltaic hollow board

PP Hollow Board Cutter NC03 - Plastic bending machine- Aecfun

Insert the metal -guided rod (1) into the PP hollow board and pull backwards to groove. The effect after grooving. 1. Cut a groove in PP hollow board to fold a right angle. What is the usage of ...

[Ecoboard , VT Development Philippines](#)

Ecoboard is a plastic hollow board primarily used as a formwork material for concrete casting. It is composed of polypropylene plastic which gives its high durability, smooth surface, high heat and water resistance properties. As an ...

Hollow Core PP Corrugated Plastic Sign Boards ...

Among them are ordinary PP hollow panels and antistatic PP hollow panels (the surface impedance range is 9- of 10). 11 power ?), anti-static PP hollow board (surface impedance range of 10 to 6-9 power ?), conductive hollow board ...

PP Hollow , Quality Paper Products & Supplies , OVOL Malaysia

Corrugated Sheets are made from Impact Co-

polymer of Polypropylene. PP Flute Boards, being tougher and lighter, offer both savings on freight and a cushioning effect. As a thermoplastic, ...

Building PP Hollow Board Plastic Construction ...

High quality Building PP Hollow Board Plastic Construction Formwork from China, China's leading Hollow Board Plastic Construction Formwork product, with strict quality control PP Hollow Board Formwork factories, producing high quality PP ...
