

Solar Energy South Africa

Kenya technaus com au

Overview

Who is Technaus?

Technaus Pty Ltd is a local company dedicated to offering the best in PV Solar Power, Solar Hot Water and energy management products. We have provided local support for Perth businesses, schools and households with careful consideration given to the end users requirements and situation.

Who is Technaus Solar?

Technaus Solar is an Australian owned and operated renewable energy company specialising in solar power and battery storage technology across Australia. With a reputation as a pioneer within the renewables sector, Technaus has been a market leading solar energy company for over 15 years.

Is Technaus a good company?

Hi Charles, Fantastic to hear your experience with Technaus and in particular Steve, has been excellent. Steve is definitely your man when it comes to sound and objective advice for a solar installation. Steve and the team don't do just one product and try and push it. Every household is different, and all customers needs can be quite varied.

Does Technaus provide a warranty?

Technaus Pty Ltd has avoided to provide me its written guarantees for workmanship with terms and conditions. Technaus Solar is a member of Clean Energy Council, but it also fails to provide required documentations as printed on page 17 of Guide to installing solar for household, published by that council.

Are you happy with Technaus?

So far, we have been very happy with the Technaus overall. From day one, they have kept in touch and been very helpful. Installation was a breeze. The electricians arrived on time and finished the job nicely without any problems

at all. They were polite and efficient. They cleaned up afterwards and removed all rubbish.

Should I accept a quote from Technaus?

If considering accepting a quote from Technaus, I would insist upon an installer viewing the roof and providing an opinion on panel placement and panel size before accepting the quotation. Panel location is very important in order to maximise output and unfortunately in my case this did not occur. Hi Barry, thanks for your review.
