company delivering affordable and reliable clean
energy. East African Power is a long-term, SR-
driven business developing, building, and

operating utility-scale, small and medium hydro and solar power plants in Sub-Saharan Africa.

Solar Energy

Solar panels can range in their energy output from roughly 75 watts to 350 watts, with an average output of about 250 watts. When solar panels are grouped together, they form a solar panel system. The energy potential of the system is calculated by the number of panels multiplied by their power output.
