Ukrainian Defensive War against the Russian Invasion , Page 957 , Kiwi ...

The bombs exploded over power infrastructure, filling the air with conductive graphite dust, and it short-circuited power. Nothing was really destroyed, systems had to be cleaned and you needed to wait for the dust to settle, but it wasn't the same as launching cruise missiles into substations. Hey guys remember how as 2007 was coming

2024 Syrian opposition offensives , Page 147 , Kiwi Farms

99% of people are absolute retards who will buy whatever optimistic propaganda the state spits out. For all the flak the Jews get - part of their power is their skepticism in their general view of life. They hardly ever take things for granted & they assume the worst will happen while preparing for said scenario.
