

Solar Energy South Africa

Kosovo solar md 14 3 price

Overview

The SolarMD SS4143 Lithium Battery is a high-capacity, wall-mounted energy storage solution designed for demanding solar energy and industrial applications. Featuring a capacity of 14.3kWh, this battery is engineered to meet substantial energy storage needs.

The SolarMD SS4143 Lithium Battery is a high-capacity, wall-mounted energy storage solution designed for demanding solar energy and industrial applications. Featuring a capacity of 14.3kWh, this battery is engineered to meet substantial energy storage needs.

The solar md 14.3KWH is used with an external battery inverter off-grid energy systems; Battery Features. Stable discharge platform; Excellent safety; Long lifecycle; High temperature performance; High energy density; High charge and discharge rate; High efficiency; No pollution.

The SS4143 relies on lithium Iron-Phosphate battery for streamlined energy storage. You can use 1 to 6 batteries on the wall during the setup. The Solar MD 14.3kWh features different storage capacities according to user requirements. We can increase capacity through the parallel connection of the batteries.

Solar MD 14.3kWh wall mount battery - SS4143. Solar MD 14.3kWh wall mount battery - SS4143. Reference: SS4143. 14.3 KWh 51.2V More than 6,000 cycles CAN Bus and RS485 Stable discharge platform Excellent safety Long life cycle High temperature performance High energy density.

The SS4143 relies on lithium Iron-Phosphate battery for streamlined energy storage. You can use 1 to 6 batteries on the wall during the setup. The Solar MD 14.3kWh features different storage capacities according to user requirements. We can increase capacity through the parallel connection of the batteries.
