Kuwait to resurrect renewable energy mega-project

Kuwait plans to use Al-Shagaya's solar power to replace some of the oil-fired electricity it generates - the country currently operates eight oil and gas-fired power stations. According to al Ajmi, electricity demand reached a peak load of almost 16GW with an installed capacity of over 20GW in 2021 and is rising at around 4-5 percent each year.

[Solar Tech Expo Kuwait 2025](#)

Solar Power to Light up Schools of Kuwait

The project includes the installation of a solar power station at the school. This station uses photovoltaic panels to convert sunlight into electricity, reducing the need for traditional energy sources and helping to lower electricity consumption. A total of 474 photovoltaic panels were installed, with each panel having a capacity of 660 watts.
