2024 Sub-Sector Working Group Advances Lao PDR's Climate ...

Vientiane, 25 October 2024: The Government of Lao PDR, with the support of the United Nations Development Programme (UNDP), organized this year's Sub-Sector Working Group Meeting (SSWG) on Climate Change, and Environment at Muong Thanh Hotel, Vientiane Capital, Lao PDR. Lao PDR's vulnerability to climate change and natural disaster requires urgent effective ...

Energy

This section focuses mainly on the production, distribution and use of electrical energy in Laos. In Laos, electricity is a key source of energy for domestic economic activities and its export provides revenue from neighboring countries. 1. After an economic shift to an 'open door' policy in 1986, economic development has become rapid, with a change from mainly ...

Lao PDR

Lao People's Democratic Republic is a land-locked country with population of 6.75 million[1] in 2017 and the GDP value of USD 17.09 billion. Lao PDR is one of the fastest growing economies in the region and globally as the GDP growth averaged at 7.8% over the last decade.

Pacific Resilience Programme (I & II) , SPC Geoscience, Energy ...

Pacific Island countries are the most vulnerable nations highly exposed to adverse impacts of climate change and natural hazards such as cyclones, storm surge, floods, earthquakes and tsunamis. The PICs are not only remote but also dispersed over a large area, with small domestic economies that are significantly impacted in the event of a natural disaster.

Laos' Net-zero 2050: Renewable Power Generation Challenges and

Renewable power generation is slowly gaining traction in the Lao People's Democratic Republic (Laos). However, the country of only 8 million people doesn't receive as much attention as its larger and more powerful fellow Association of Southeast Asian Nations (ASEAN) members, particularly Indonesia, Thailand, Vietnam and the Philippines.

Energy, Environment and Global Climate Change , Laos , U.S.

USAID works with the Government of Laos (GoL) to address climate change challenges, particularly supporting the GoL's Nationally Determined Contribution to reduce greenhouse gas emission in the energy sector; assisting the GoL to achieve its target of 30 percent electric vehicles by 2030, and its goal to diversify the energy mix with more non-hydro renewable energy.

World Food Programme Showcases 2023 Milestones in Vientiane

The event was attended by WFP officials and UN Resident Coordinator to Laos, Bakhodir Burkhanov, alongside members of the Lao press. A central topic of the event was the National School Meals program, which in 2023 provided daily meals to 69,000 children across the nation, covering 25 percent of schools and benefiting a total of 198,000 children.
