Low-cost, low-emission 100% renewable electricity in Southeast Asia

Therefore, the need for short-term, diurnal energy storage is large while the need for long-term, seasonal energy storage is low [5]. STORES offers vast opportunities to access low-cost and mature energy storage on timescales of hours to a few days, which can enable a cost-effective renewable energy transition in Southeast Asia.

EDF and Laos Partner to Propel Southeast Asia's Energy Transition ...

Together with the Government of Laos, EDF signed a memorandum of understanding to undertake the feasibility studies for a Pumped Storage Hydropower project located nearby Nam Theun 2, with an installed capacity up to 2,000 MW and 30 GWh of storage, which would rank it among the top 10 largest pumped hydro energy storage systems in the world!
