Solar Photovoltaic Performance Overview

Solar energy and power penetration levels are as follows: Solar energy penetration Maximum observed value of 11.3% daily PV energy penetration. Average overall daily mean energy penetration was 4.6%. Solar power penetration Maximum PV power penetration was 43.5%. Mean solar power penetration for the entire data set was 4%.

AJ Power installs the largest solar panel park in Latvia

Working together with the largest Latvian private energy group AJ Power, this summer SIA Lyngson installed the largest solar panel park in Latvia. Within the project, 1580 solar panels with the total capacity of 489 kW were installed on the roof of the production building. Currently, it is the largest installed solar panel park in Latvia, and it will generate almost ...
