Overview

Who is Lithium Power?

Lithium Power, Inc. has been the industry leader in lithium battery technology for nearly two decades. We offer turn-key lithium battery pack solutions for OEMs/ODMs that meet each company's unique requirements of cost, performance, reliability, and safety.

What does Lithium Power do?

Lithium Power now seeks to expand its successful business model of custom made Smart Battery solutions to serve more industries within the OEM/ODM business world by offering the proprietary BMS solution alone in addition to custom made lithium battery packs.

Are lithium batteries safe?

In addition, advances in safety features and well-designed lithium batteries are safer for consumer use than ever before. Lithium Power has been successfully deploying its custom made lithium battery packs and proprietary Battery Management System (BMS) solutions in a wide variety of markets.

Will lithium batteries replace lead acid batteries?

The unit price per watt-hour of lithium batteries is approaching lead acid batteries. Within 2 to 5 years, Lithium Power believes that lithium batteries will replace lead acid batteries in many industries and products by offering advantages in size, weight, efficiency, measurability, maintenance, scalability, and cost.

How does Lithium Power's Smart BMS work?

Lithium Power's unique Smart BMS allows batteries to charge and discharge in parallel. This unique technology utilizes a modular design to increase capacity, adding additional modules without requiring increased voltage. Effective, cell-balancing power use controlled automatically by our Smart BMS

Lithium Power, Inc. Product / Services Description
Lithium Ion, LiFePO4, and LTO Custom Battery Packs and chargers for a wide range of applications, including e-mobility, UAV, AGV, Solar Energy Storage, BESS, Medical, VTOL, and Lift/Pull/Push applications of all sorts.

[Lead Acid Replacement Solution](#)

Lithium Power's unique technology and extensive experience can overcome these challenges and allow our custom made lithium batteries to easily retrofit existing lead acid applications. Most importantly, we prioritize safety and have successfully obtained UL and IEC Certifications for all of our custom-designed lithium batteries.

Careers

Our business is growing rapidly with the booming lithium industry. We need all kinds of talent to join us and help us meet the market's need for professional turnkey lithium battery pack solutions. If you are interested in becoming a part of our team, please reach out ...
