LPSA's Thematic Working Group on Subnational Finance

LPSA's Thematic Working Group (TWG) on Subnational Finance aims to bring together government officials, policy practitioners, scholars, civil society organizations, and citizens who share an interest and expertise on fiscal decentralization, multilevel government finance, intergovernmental fiscal relations, and subnational financial management.

[Welcom to the LPSA Web Site](#)

Welcome to the LPSA (Linear Physical Systems Analysis) website! This site was designed to accompany a course in linear systems taught at the Department of Engineering at Swarthmore College, but should be useful to anybody interested in these systems. The layout of the site is somewhat different than many, and consists of two complementary parts.

...

LPSA model update: Once an LPSA model is established, the subsequent task is to update the state of each component in the LPSA model to make it consistent with its actual state during operation. According to the phases of model update, three generations of LPSA have been developed in the past decades since the 1990s (Freeman and Moir, 1993).

The Local Governance Institutions Comparative Assessment ...

The Local Governance Institutions Comparative Assessment (LoGICA) Framework provides an assessment tool to analyze the multilevel governance structure of a country, along with the subnational institutions and intergovernmental systems that contribute to inclusive governance, effective public service delivery and sustainable localized

Winter School on Federalism and Governance 2025

During the training program, participants will analyze the legal and political structures of distribution systems. Starting from an introduction on the origins of the separation of powers, experts will lecture on the vertical and ...

Decentralization, Localization and the Local Public Sector

Effective decentralization and accountable governance institutions at all levels provide one of the most important avenues for people--including the poor, women and minorities--to participate in the development of their communities and to influence the decision-making processes that are directly relevant to their lives.

1.1 Why Decentralization? - Decentralization Net

As such, intergovernmental systems can also be restructured in order to increase the vertical power of the national ruling party or the national government as a whole based on political or

political economy considerations.

Summer Island Maldives installs world's largest 3D-printed reef system

Summer Island Maldives on Saturday installed world's largest 3D-printed reef system, in an effort to help protect coral reefs in the face of rising ocean temperatures caused by climate change.. In a first for the Maldives, the artificial reef, created with ceramic and concrete modules, was submerged in seven metres of water in the 'Blue Lagoon' part of Summer ...
