Luggage storage battery

Overview

Should you pack batteries in your carry-on luggage?

It's always best to pack your batteries in your carry-on luggage, as opposed to checking them in. This is because the cargo hold can be exposed to extreme temperatures that may damage the batteries or cause them to leak. When packing your batteries, make sure to keep each battery separate from one another and place them in a clear plastic bag.

Are batteries safe in a carry-on bag?

Don't worry about your batteries getting confiscated - keep them safe in your carry-on bag. It's always best to pack your batteries in your carry-on luggage, as opposed to checking them in. This is because the cargo hold can be exposed to extreme temperatures that may damage the batteries or cause them to leak.
