Energy Storage Products - Spar Power Technologies ...

The Basic Building Block is 2.7 Vdc, 100,000 farad super-capacitor, connected in series and parallel to make 12, 24 and 48 Vdc modules at various energy storage up-to 5.1kWh, per module. These capacitors can be operated in extreme ...

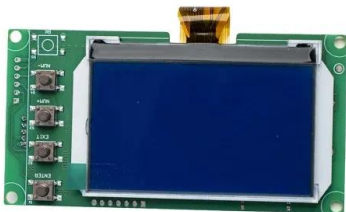

Energy Sector - Spar Power Technologies Inc.

Transportation - Spar Power Technologies Inc.

Supercapacitors are well suited in providing the necessary burst of power for starting large diesel engines. Trucks around the world are increasingly replacing lead acid batteries with Supercapacitor technology that is more reliable, guarantees starting in very cold weather and prolongs the engine starting system's service life.

[Marine - Spar Power Technologies Inc.](#)

Marine applications, commonly subject to limited electrical supply conditions and stringent compliance requirements, can benefit greatly from the use of Spar's soft start and VFD technologies. In fact, the ability to start motor driven marine systems with reduced current minimizes stress on the electrical supply, and gentle acceleration
