

Solar Energy South Africa

Maximo energy Tajikistan

Overview

Why should Tajikistan invest in hydropower?

Tajikistan's geographic proximity to some of the world's fastest-growing energy markets means that investing in developing its hydropower potential can contribute to regional energy security and the clean energy transition, in addition to addressing Tajikistan's high vulnerability to climate change and natural disasters.

Does Tajikistan have a solar power plant?

The project also includes a hybrid energy storage power plant rated for 180-kilowatt hours. The new solar plant is a direct result of successful cooperation between the Government of Tajikistan, USAID, and Pamir Energy Company.

Why did EBRD invest €31 million in Tajikistan's energy grid?

In late February, the European Bank for Reconstruction and Development (EBRD), one of the banks involved in the Global Gateway investments, announced €31 million in investments into Tajikistan's energy grid aimed at improving sustainability and integrating 700 megawatts of electricity generated by renewable sources into the grid.

What is IEA's energy sector review of Tajikistan?

This International Energy Agency (IEA) energy sector review of Tajikistan was conducted under the auspices of the EU4Energy programme, which is being implemented by the IEA and the European Union, along with the Energy Community Secretariat and the Energy Charter Secretariat.
