

Solar Energy South Africa

Mexico smartflower price europe

Overview

Is smartflower still available in Europe?

Since the Austrian company SmartFlower Energy went bankrupt, it is no longer purchasable in Europe. This said, an equivalent model simply named “SmartFlower” is still commercialised in the US. This model is very similar to the POP version, aside it being slightly more powerful (205 kWc) and available in fewer colours (white, grey, green and blue).

How much does a smartflower cost?

The Smartflower Plus, which includes an 11-kilowatt battery, is available for \$65,500, not including shipping and installation fees. Smartflower has a flower-like design that tracks the sun, offers on-grid and off-grid setups, and self-cleaning panels. See if Smartflower is right for you.

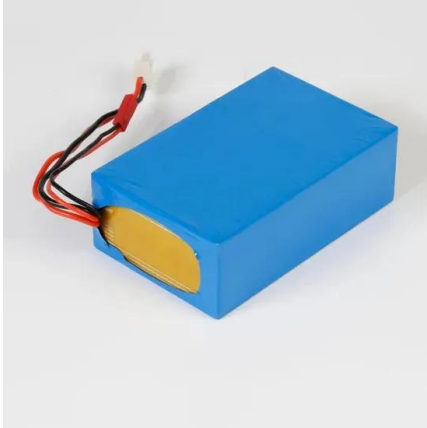

Does smartflower work in France?

Additionally, the SmartFlower can work in virtually any climate, as it can work at any between -20°C and 50°C. It will this be usable anywhere in France, at any time of year. The first model introduced was SmartFlower POP.

What features does the smartflower include?

Some of the other features that the SmartFlower includes are: Smart Cooling – The system includes rear ventilation to keep the module up to 18°F cooler than it would be otherwise. This helps with the solar cell’s efficiency, as solar panels function differently in varying temperatures. For the SmartFlower, this means 5-10% more output on average.
