Montenegro sunstream energy

Overview

Does Montenegro have an energy efficient home?

In 2023, the project Energy Efficient Home continued to support households to purchase heat pumps with interest-free loans. Montenegro is still finalizing its draft NECP, which must harmonize the 2030 energy efficiency targets with the 2030 targets set by the Energy Community.

Will Montenegro adopt a re-newable based district heating system?

Montenegro finalized the adoption of a complete package of updated energy labelling rulebooks, as incorporated into the Energy Community legal framework by the 2022 Ministerial Council. Žabljak municipality is exploring options for establishing a re-newable-based district heating system.

Which energy projects have been subjected to an EIA in Montenegro?

Montenegro has not provided a list of energy projects that underwent screening and were subjected to an EIA. The development of the EIA, which should include an appropriate assessment for the Komarnica hydropower project, located within a candidate Emerald Site and the Dragišnica and Komarnica Nature Park, was delayed.

Does Montenegro have a gas network?

No gas network exists in Montenegro. Montenegro's only applicable model for the unbundling of a future gas transmission system operator is the ownership unbundling model. Montenegrobonus has been designated by the Government for that purpose, with no actions in that regard for years.

[The energy sector in Montenegro](#)

With around 650 000 inhabitants, Montenegro's electricity needs are currently satisfied by just one 210 MW coal power plant at Pljevlja (around one third of electricity), and hydropower plants (the remaining two thirds). Hydropower comes mainly from the 307 MW Perucica and 342 MW Piva plants, with the remainder from other much smaller hydro facilities. New forms of renewable
