Best Solar generators for a power outage : r/preppers

No "solar generator" will power a house for more than a few hours at most, unless you go to a full on solar installation with massive batteries, like Tesla Wall. Apparently Generac now make a cheaper competing product, but I don't know much about them.

What Is A Solar Generator? Eliminating The Confusion

Put simply, a solar generator is an integrated portable power source appliance that receives power from solar panels, an AC outlet, or a DC power source such as a car battery and stores that power in an onboard battery bank.. Once charged, you plug electronics and appliances into the outlets on the solar generator to use the stored power. Most solar generators are sold as a ...
