Nash energy Gibraltar

Overview

What is Nash energy doing in Bengaluru?

Nash Energy, part of the Nash Group, has completed commissioning its 600 MWh annual capacity LFP cylindrical cell manufacturing plant in Bengaluru. The cells are BIS certified and currently under customer qualification with several EV and ESS OEMs. Nash is also working on several system solutions – from 25.6V to 1100V.

Who is Nash energy?

Nash Energy is industry leaders for design, manufacture & assembling Industrial products and solutions by adopting innovative and state of the art manufacturing technologies, systems and processes that are reliable, cost effective and functional.

Is Gibraltar switching from diesel to natural gas?

Gibraltar today saw the official opening of a liquefied natural gas (LNG) regasification terminal that was recently completed by Shell and Gasnor (a 100% Shell-owned subsidiary). As a result, Gibraltar is switching from diesel-fuelled power generation to cleaner-burning natural gas, using a newly commissioned 80-megawatt gas-fired power plant.

Does Gibraltar need a cleaner liquefied natural gas (LNG)?

Until recently, Gibraltar's energy needs were 100% powered by marine diesel – so, a better solution was urgently needed – one that switches from diesel to cleaner liquefied natural gas (LNG).

Does Nash energy have a quality management system?

Nash Energy is committed to continuously improve and implement strict Quality Management System throughout our manufacturing process to ensure stated performance, safety, and reliability of our battery products with enhanced efficiency, productivity, and customer satisfaction.

Why does Gibraltar need a LNG power system?

The people and businesses of Gibraltar will have better air quality, a quieter environment, and see the rewards of better energy efficiency. Michael Caetano, Chief Operational Officer of the Gibraltar Electricity Authority (GEA) When Gibraltar upgraded its nearly 40-year-old power system, they opted for a unique LNG solution.
