Overview

How does Entrix optimize the value of your energy assets?

We at Entrix optimize the value of your energy assets in real-time. Based on predictions of the energy system and energy markets, our solution trades your assets' capacity into the right markets at best possible prices – tailored to the changing circumstances of every single day. In everything we do, we take a full asset lifecycle perspective.

How does Entrix work?

By having created intelligent and highly adaptive algorithms that constantly evaluate the best opportunities in the markets, Entrix not only maximizes current revenues, but also takes into account weather conditions, seasonality, macro-economic developments and changing market designs to maximize the overall lifetime profitability of the battery.

What sets Entrix up for success?

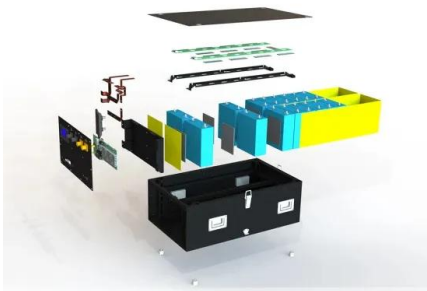

They set us up for success by creating an environment characterized by collective development and high performance. We are continuously looking for bright minds who share our vision to build a sustainable and clean future.
