PowerRouter Solar Inverter With Island Mode

These 3.0, 3.7 and 5.0kW inverters by Dutch company Nedap Energy Systems feature "island mode" technology - allowing you to keep power supplied to your home or business even during a blackout! Traditional solar inverters shut down as a safety precaution during power outages to ensure a solar power system isn't continuing to export electricity

[generate and use your own solar energy](#)

This compact, all-in-one system inverts the solar energy you generate and its integrated, PowerRouter switches to "island mode" when the grid fails. After a short delay it resumes operation, enabling its unique "Local Out" Nedap Energy Systems P.O. Box 101 7140 AC Groenlo The Netherlands T +31 (0)544 471 888
