

Solar Energy South Africa

New Caledonia solar eko energia

Overview

Who owns New Caledonia's energy?

The energy produced will be sold via a long-term power purchase agreement to Enercal, a semi-public company majority owned by New Caledonia. A similar (but smaller) project has also been financed at the same time in Temala in the North Province. It is the first photovoltaic power plant on customary land.

What is New Caledonia's largest solar power plant?

The project involves building and operating a solar power plant with a capacity of 11.2 MWc in the South Province, in Boulouparis. The power plant, which is the largest existing solar facility in New Caledonia, comprises 43,000 panels covering 20 hectares. It was commissioned at the end of April 2017.

Why is AfD cofinancing the largest solar power plant in New Caledonia?

AfD is cofinancing the largest solar power plant in New Caledonia to allow cleaner energy to be generated. 43,000 photovoltaic panels will be installed, with a capacity to produce electricity for the equivalent of 5,400 households.

Newsolar - Projetos fotovoltáicos

Energia z farm fotovoltáicznych Polityka energetyczna i klimatyczna w skali ponadnarodowej wymusza redukcje emisji zanieczyszczen oraz CO2. Cel wyznaczony w Porozumieniu Paryskim na 2030 rok, czyli redukcja emisji gazów cieplarnianych o co najmniej 40% w porównaniu z poziomem z 1990 roku, wymusza inwestycje w odnawialne źródła energii.

Total Inaugurates New Caledonia's Largest Solar Power

The plant is the second tranche of the solar park which is the most extensive solar program ever carried out in New Caledonia. The first tranche, Hélio Boulouparis 1, was put on stream in 2017. Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), enough to cover the energy needs of
