Overview

Who is adelsystem?

A technological path has been made, and our vision has been rewarded by the development of market needs. Established in 1991, ADELSYSTEM produces linear and switch-mode power supply units. ADELSYSTEM is recognized as one of the world's foremost manufacturers of industrial power supplies, DC UPS, and intelligent battery chargers.

What makes adelsystem unique?

In summary, Adelsystem's blend of innovation, quality, and customer-focused services positions it as a key player in the global market for power supply technologies, servicing a wide range of industrial sectors with its sophisticated and sustainable products. Can't Find the Product You Want?

.

What is Adel system?

ADEL System provides a complete range of innovative solutions to support fields in development such as Smart City and Security Integration. . Continue. How the DC-UPS ADEL System fits the world's first fully integrated turnkey floating LNG terminal?

Nicaragua adelsystem

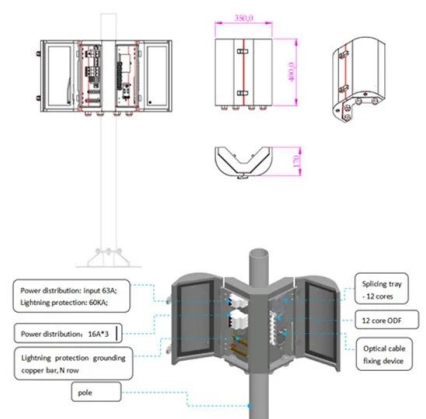

DC-UPS with ETHERNET interface

The CBI60W Series has based on Battery Care technology by Adelsystem: Specific battery charging profiles (Lead Acid, AGM, GEL, NiCd, NiMh, Li-Ion and LiFePO4); Temperature compensation charge; Deep discharge protection; Charging current limiter; Battery tester (battery connection, reverse polarity, cells in short circuit, bad internal impedance);

Entreprise

Fondée en 1991, elle conçoit et fabrique des alimentations industrielles à technologie linéaire et switching. Grâce à son expérience, plus de 250 modèles fabriqués, dans différents secteurs, ADEL System offre aujourd'hui une gamme d'alimentations conçues pour répondre à toutes les applications dans le domaine de l'automatisation industrielle.

ASI avec interface ETHERNET

La série CBI60W est basée sur la technologie Battery Care d'Adelsystem : - Profils de charge de batterie spécifiques (Lead Acid, AGM, GEL, NiCd, NiMh, Li-Ion et LiFePO4) ; - Charge à compensation de température ; - Protection contre les décharges profondes ;

Industrial Power Supply

The declared ambient temperature operations field starts from -25 up to 70°C. Three short-circuit overload protections (Hiccup Mode, Fold Back e Restart after Main), the small sizes of the units, and the appliance to the EN 60204-1 Safety of Electrical Equipment Machines change the way to supply power to the control panel.
