Water Desalination -- Rhino Onward International

ROI takes in two untapped resources, solar energy, and brackish water to produce green electricity, hydrogen, and potable water. As part of our original process, we treat brackish water from either a deep formation, unusable aquifer, or seawater for either direct delivery or to prep the water to be used in hydrogen production.

Han Li

What attracted Han to GoldenCROFT & Rhino Onward International was its people and ambition. Han has known Paul Croft since Paul's move to Chicago, and they have been close friends since. Han has seen Paul's individual growth, which is strongly reflected in the companies' growth. He believes that GoldenCROFT & Rhino Onward International

Bio , Paul Thomas Croft

His visionary approach led Paul to start Rhino Onward International (ROI), which focuses on green energy solutions, concentrated solar

power, water desalination, and green hydrogen. As its Founder and Executive Chairman, Paul aims to emerge as the global leader in delivering green energy solutions. ROI will empower its clients to achieve their
