

## Solar Energy South Africa

# North Macedonia solar power generator for house

## Overview

---

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: “The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company’s first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

What power plants are in North Macedonia?

Coal fired thermal power plants and hydro power plants are the main generating capacities in North Macedonia. The total installed capacity for production of electricity in North Macedonia is 2.06 GW with ~48% being thermal power plants, ~34% large and small hydro power plants, ~15% combined natural gas fired plants and ~3% other renewables.

Is North Macedonia a state-owned power company?

North Macedonia’s state-owned power company was unbundled and partially privatized in the early 2000s. Austrian utility company EVN has been responsible for electricity distribution in North Macedonia since entering the market in 2006.

Is North Macedonia a good place to invest in green energy?

Dimitar Kovačevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold.
