MIGA Boosts Tunisia's First Large-Scale Solar Energy Project

Tunisia's ambitious plan to increase renewable energy production is geared toward reducing its overreliance on imported gas for its power generation that threatens its energy security.

The Kairouan Solar Project will be the first milestone to achieve the government's plan and will pave the way for further private investments in the sector.

Energy in Tunisia

The energy sector in Tunisia includes all production, processing and, transit of energy consumption in this country. The production involves the upstream sector that includes general oil and gas, the downstream sector that includes the only refinery in Tunisia and most of the production of natural gas, and varied electrical/renewable energies. Renewable energy has ...

Power Tunisia

USAID Power Tunisia. Advancing Tunisia's energy security and resilience by providing technical assistance and facilitating investment funding for the deployment of clean energy technologies resulting in increased clean energy generation capacity, reduced energy demand and consumption, and lower CO2 emissions.
