### [Kuwait: Energy Country Profile](#)

Kuwait: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

### Changes in the water quality

## conditions of Kuwait's marine

...

The State of Kuwait, with a coastline of almost 500 km, is situated at the north-western corner of the Arabian Gulf. Kuwait Bay is a major feature of the Kuwait marine environment (Fig. 1). The Bay is characterised by shallow, marginal, semi-enclosed waters and is up to 35 km wide, with a mean depth of 5 m (maximum 20 m) and an asymmetric slope pattern.

## [Phosphate , Our Business](#)
