

Solar Energy South Africa

Off grid solar battery price New Zealand

 **TAX FREE**    

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

Overview

With only six solar panels and two battery modules, this Tiny system is really only suitable for high sunshine areas. However, it can be easily and cost-effectively expanded – up to a point. In fact, you can add up to 6.

The PS: Tiny base system is designed to run basic appliances only. These could include: 1. Up to four or five LED lights on at the same time 1. Small fridge/freezer 1. Washing machin.

All off-grid solar systems have limitations. This is based on the number of panels, the size of the battery bank, and the capacity of the inverter/s. The PS: Tiny system is a small system for.

The sizing of our off grid solar systems are intended to be a basic guideline; a starting point. The fact is, there is no ‘one size fits all’ solution. All systems are customised to your specific situ.

Use our expertise to see if the PS: Tiny system is right for you. When you are ready to get in touch, you can use our free and no obligation design service. We’ll help you to accurately size y.

In New Zealand, the price of a solar battery storage device varies from \$6,000 to \$20,000.
