Outdoor electronics cabinet United Kingdom

Overview

Why should you choose nVent Schroff outdoor cabinets?

Telecom and Railway applications require sophisticated electronics in outdoor setups. nVent SCHROFF Outdoor cabinets shield such electronic components from extreme weather, vandalism and thereby ensuring operational continuity. Modular construction allows multiple configurations in sizes and functionalities along with multiple cooling options.

Where are our enclosures & cabinets made?

Our outdoor enclosures and indoor racks and cabinets in 19", ETSI and ANSI formats for compute, data storage and networking hardware are designed and manufactured in the UK by our experienced team of engineers.

What are nVent Schroff Telecom cabinets used for?

nVent SCHROFF telecom cabinets can be used as Dslam / Point of Presence / Zone pooling / FTTC / FTTH / MFG cabinets whereas nVent SCHROFF railway cabinets are installed as track side signalling and communication cabinets for an array of applications; ERTMS, ETCS, CBTC, predictive maintenance and passenger communication to name a few.

Why should you choose Vanguard® outdoor cabinets?

With a robust construction, coupled with important vandal resistant features, Vanguard® outdoor cabinets provide a cost-effective solution to protect your outdoor opto-electronics and fibre connectivity.

What is a double walled outdoor cabinet?

The AL double walled cabinet with inner case with removable outer cladding is the perfect mid-featured outdoor cabinet. It can be either wall or pole mounted with front accessibility only. Cooling through natural convection, fan or heat exchanger allow customers to choose from a long list of standard thermal management solutions.

Are Vanguard IP rated cabinets fully assembled?

Vanguard IP Rated cabinets are supplied fully assembled ready for immediate deployment.
