Photovoltaic bracket sales manufacturers ranking list

Overview

Which companies are leading the global PV module market in 2022?

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 270GW in 2022, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, supplied 46.76GW of modules in 2022, up 21% year-on-year.

Who are the top 20 solar module manufacturers?

The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

Which solar brands have a strong market share in 2023?

The Top 4 and Top 5-9 lists remained relatively stable in 2023, with established and emerging brands holding their ground. JinkoSolar, Trina Solar, LONGi, and JA Solar collectively shipped over 270 GW, claiming a 52% market share. The Top 9 brands, in total, surpassed 400 GW in shipments, securing a robust market share exceeding 75%.

Who are the top 10 solar companies in the world?

The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as last year. Chint (Astonergy), Tongwei, Canadian Solar, Risen Solar, DAS Solar, GCL SI and First Solar were among the top five to ten.

Who makes the most solar panels in 2022?

JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules. TrendForce says in a new report that the top six module manufacturers in 2022 shipped around 205 GW to 211 GW of

PV panels, accounting for 76% to 78% of 270 GW of module demand last year. All of the main manufacturers are based in China.

Which solar companies dominated the solar market last year?

JA Solar came in fourth with 39.75 GW, followed by Canadian Solar with 21.1 GW, and Risen Energy with 16 GW. High-power, large-format modules dominated the market last year, according to TrendForce. With advancements in n-type technology, 210 mm products have already become mainstream and will continue to rule the market, said the research firm.
