

Solar Energy South Africa

Photovoltaic inverter market in 2025

Overview

How big is the solar PV inverters market?

The Solar PV Inverters Market size is estimated at USD 13.68 billion in 2024, and is expected to reach USD 17.23 billion by 2029, growing at a CAGR of 4.73% during the forecast period (2024-2029). Although the market studied was affected by COVID-19 in 2020, it has recovered and reached pre-pandemic levels.

What is the market share of solar PV inverters in 2023?

According to the Solar Energy Industries Association (SEIA), prices for solar PV installations have fallen 43% over the last 10 years in California, U.S. Based on product, the string PV inverter segment emerged as the leading segment with the maximum revenue share of 47.10% in 2023.

How much electricity will a solar PV inverter generate in 2050?

IRENA also estimates that solar PV will account for nearly 30% of electricity generation by 2030 and 49% by 2050 under their 1.5 degree scenario. PV Inverter Market Trends.

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

Which countries will dominate the solar PV inverter market in 2021?

Asia-Pacific dominated the solar PV inverter market in 2021, and it is expected to continue its dominance over the coming years. Most of the demand is expected to come from China, which is also the largest producer of solar energy in the world.

How much power does a solar inverter generate in 2022?

According to the International Energy Agency (IEA), power generation from solar photovoltaic (PV) increased by 270 TWh in 2022, up by 26% in 2021. Solar PV accounted for approximately 4.5% of total global electricity generation in 2022. Solar PV inverters are an integral part of larger solar systems.

Photovoltaic inverter market in 2025

PV Inverter Market Size, Share And Growth Report, 2030

PV Inverter Market Size & Trends. The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030. The growing ...

Global PV inverter market surpassed \$9 billion in ...

Pemex operating goals compromised with tight 2025 budget, observers say. The PV inverter market achieved record shipments, growing by 19% to 126 GW in 2019 driven by booming shipments in key markets such as ...

Photovoltaics (PV) Market Size, Share and Growth ...

The PV inverter market is growing rapidly due to increasing demand for solar PV systems and the continuous improvement of inverter products to increase efficiency and reduce costs. The article also mentions ...
