Photovoltaic panel back sheet separation

Experimental Methodology for the Separation Materials in the

...

attrition, and vibration for glass separation and is the less polluting method compared to the other two [10-12]. Thermal treatment is mainly used to remove the polymeric fraction of the ...

Technological Advancement in Solar Photovoltaic ...

The PV panel was placed on a conveyor belt that took it through a furnace at over 773.15 K, sufficient to break the insulating junction plates and the back sheet, thus allowing for the separation of the PV layers, where the ...
