What is it?

Introduced by the UK government on 1 January 2020, the Smart Export Guarantee (SEG) replaced the Feed-in Tariffs (FIT) scheme. It allows solar panel owners to sell.

Photovoltaic panels are not free¹²³⁴⁵. While there are incentives and programs that can reduce the cost of installing solar panels, homeowners typically need to invest in the initial installation or enter into lease or power purchase agreements with companies that provide and maintain the panels⁴⁵.

However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant solar panels for free to customers.

Solar is not free, but it usually saves homeowners thousands of dollars more than the initial investment."

The federal government does not provide free solar panels, but does provide incentives that reduce the cost of going solar.

Companies often offer “free” solar panels through leases or power purchase agreements (PPAs), where they install and maintain the panels at no upfront cost.

Renting solar panels may be “free,” but so long as you're renting, you'll be charged for the electricity the panels produce. Are there free solar panels in the UK?

Let’s outline the current state of solar panel funding in the UK. In short, there is largely no such thing as “free solar panels” in terms of government grants that will cover 100% of the installation costs. You can earn money from your solar panels via the Smart Export Guarantee.
