### ERA

Electricity Regulatory Authority (ERA) is a Statutory Body established in the year 2000 in accordance with the Electricity Act 1999 (Chapter 145 Laws of Uganda) to regulate the generation, transmission, distribution, sale, export & import of electrical energy in Uganda, and to guide the liberalization of the electricity industry, manage licensing, rates, safety and other ...

### About GET FiT

Roll-out of the program will start in Uganda in Phase 1. Through the roll-out in Uganda in phase 1 of the program, a portfolio of currently 17 small-scale renewable energy generation projects promoted by private developers with a total installed capacity of roughly 160 MW will be fast-tracked. This will help to add much-needed clean generation

## [Uganda Solar Energy Association](#)

Uganda Solar Energy Association (USEA) is an independent nonprofit association dedicated to facilitating the growth and development of solar energy business in Uganda and the East African region. USEA formed in 2016 by private sectors

...

## Tenders

eoi - management of the totalenergies ep uganda nursing scholarship program under the tilenga project in ug. deadline: 8th october 2024  
procurement and construction of a turnkey project for a 15mw ground-mounted solar photovoltaic plant. deadline: 7th june 2024 see more.  
eoi - provision of produced water treatment operational support.

## Uganda

Energy for All (SEforAll) as well as the Uganda Solar Energy Association (USEA) and the Uganda Renewable Energy and Energy Efficiency Alliance (UN-REEEA). It is part of a series of briefing notes that provide a high-level overview of the status of countries' announced a new program in Uganda, with over EUR20 million in investment. The

## [Senior Program Associate Careers](#)

Job Title: Senior Program Associate. Organisation: Uganda Solar Energy Association (USEA) Duty Station: Kampala, Uganda . About US: Uganda Solar Energy Association (USEA) is an independent non-profit association dedicated to facilitating the growth and development of solar energy business in Uganda and East Africa

region.

## Socio-economic analysis of solar photovoltaic-based mini-grids ...

The provision of electricity in rural areas has been an outstanding need in trying to achieve the United Nations sustainable development goals (SDGs) by 2030. However, most sub-Saharan countries have found this difficult due to financial constraints. Uganda tried to increase rural electrification to more than 20% of its population by 2020 through Rural ...

Learn about the latest advances in Solar Energy through this high-level Postgraduate Diploma for engineers. - TECH Uganda. The world's largest online university. Campus Login. Contact - EN. postgraduate diploma. Solar Energy Solar Energy . postgraduate diploma Solar Energy . Download the brochure

## Scales of accountability: Solar mini-grids and clean energy for all in

The opportunities and challenges of solar PV

installations at different scales, from utility to community to household, in increasing electricity access and facilitating a just transition in developing countries such as Uganda are well documented by various scholars [14, 16]. Less is known, however, on what accountability relations are applicable in practice at ...

## Uganda: 20MW solar project designed to serve regions

A Private Infrastructure Development Group (PIDG) company has committed \$19 million to a new 20MW solar PV project designed to provide clean, affordable energy for one of the most remote and underserved regions in north-western Uganda. The financing from the Emerging Africa Infrastructure Fund (EAIF) was concluded during COP28 and advances

## ERA and GET FiT announce the first 20 MW of Solar Photovoltaic (PV ...

December 10, 2014 18:00 The Electricity Regulatory Authority (ERA) in cooperation with GET FiT Uganda, announce the conclusion of the process for the selection of the first 20 MW of solar photovoltaic (PV) projects to be developed in Uganda. After a competitive bidding process that was initiated in January 2014, the projects proposed by the

## About us - Uganda Solar Energy Association

PROMOTE RELEVANCE: Position solar energy as

## Uganda photovoltaic pilot project for rural electrification

The Government of Uganda is committed to addressing the energy needs of the majority of its citizens who live in the rural areas. To achieve the objectives, the project strategy will be to establish programmatic and/or commercial linkages between local industry/importers, banking institutions, NGOs/cooperatives, training institutions, and Government agencies through the ...

## Promoting Solar energy through Auctions: The Case of Uganda

Uganda's GET FiT program () was initially

an important source of power in Uganda's energy mix. **DISTRIBUTION:** Promote the use of solar energy at all levels i.e. from the smallest private dwellings, to small and medium enterprises, through to commercial and public bodies and up to large parastatal and industrial establishments. **NETWORKING:** Strengthen the local ...
