

Solar Energy South Africa

Photovoltaic support program evaluation form template

Overview

How do I take solar survey assessments?

Easily take solar survey assessments with our simple starter template. This template is designed to demonstrate how Growform can be used by solar PV installers to collect data more efficiently. It covers planning, system design, roof assessment, system data and location of key components – as well as customer information.

When do I need a solar PV system upgrade?

This is typically required if you are installing solar PV on a distribution line that already has significant solar PV capacity installed. If an engineering review determines that distribution system upgrades or additional interconnection facilities are needed to support the proposed system, those costs may be passed onto the PV owner³⁰.

What is home looking for in a solar PV project?

HOME is seeking a strong and experienced partner for developing and/or constructing solar PV projects at four sites initially. The focus for project development is designing, engineering, permitting, financing, installing, and operating on-site solar PV systems to reduce HOME's operating costs while increasing the use of renewable energy.

What should be included in a PV system monitoring proposal?

Monitoring shall include revenue-grade metering of PV system production and building consumption, pyranometer, and ambient air temperature sensor. Proposals must include Internet hosting of monitoring with on-line access for Buyer personnel and touchscreen kiosk or video monitor for public display of data.

Do I need an engineering review for a solar PV project?

PV projects that require an engineering review to ensure that the grid is not

adversely impacted by the proposed system will face additional fees or charges. This is typically required if you are installing solar PV on a distribution line that already has significant solar PV capacity installed.

Should Universities issue RFPs for solar PV?

Typically, universities issue RFPs as a way to get competitive bids on solar power purchase agreements (PPAs). However, RFPs could also be used for university-owned systems. While providing assistance to universities issuing RFPs, NREL has developed a list of common issues to consider when writing an RFP for solar PV.
