## Hawaii Island's biggest solar-plus-storage plant will soon deliver

As reported by Energy-Storage.news back in August 2022, US power producer AES Corporation is developing the plant, featuring 30MWac/43MWdc of bifacial solar PV modules on single-axis trackers, and 30MW/120MWh of lithium-ion battery storage.. As noted in the August article, AES appointed German renewable energy company Baywa r.e. as engineering, ...

## Philippines' first hybrid solar-plus-storage

ACEN, a publicly-listed integrated energy company with generation assets and retail electricity businesses headquartered in the Philippines and owned by holding company Ayala Group, said yesterday that the BESS has been brought online and will be used to evaluate opportunities to develop more storage across the company's portfolio.

## Time to take virtual power plants seriously

As society moves away from centralised fossil fuel generators to increasing shares of distributed renewable energy resources, the idea that customers' homes could become host to virtual power plants (VPPs), joining the dots between electricity supply and demand across the grid, has gradually gathered traction. Andy Colthorpe speaks with Suleman Khan CEO of ...
