

Solar Energy South Africa

Portugal Isi storage

Overview

How much does LSI cost?

A special discounted LSI rate of \$495 per room, per night, is available to the first 50 registrations. Please click on the link below to make your reservation. LSI Europe '24 convened over 750 executives in Sintra, Portugal.

Why is energy storage important in Portugal?

Renewable energies are inevitably vulnerable to variations in availability, since the sun and the wind cannot be programmed. Energy storage is therefore essential if EU targets are to be met. Portugal's installed energy storage capacity is still predominantly based on hydro pumping, which currently stands at 4,164 GW year.

How much does LSI Europe '25 cost?

True to our ethos, LSI Europe '25 will not be held in a chaotic convention center. We have identified a world-class venue for the 2025 event where senior executives can do real business. A special discounted LSI rate of \$495 per room, per night, is available to the first 50 registrations.

Should energy storage be democratised in Portugal?

Energy storage is therefore essential if EU targets are to be met. Portugal's installed energy storage capacity is still predominantly based on hydro pumping, which currently stands at 4,164 GW year. However, this paradigm is about to change with the democratisation of energy storage solutions through wind and solar production.

Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trainers, 100% DC Input Utilization
- Max. PV Input Current 10A, Compatible with High Power Modules

Intelligent Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnostic function: locate PV string faults accurately and automatically detect faults
- DC & AC Type-II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible Abundant Configuration

- High & Plus MPPT Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCC Function (Optional): when an arc fault is detected the inverter immediately stops operation
