Overview

Who provides electricity in Turks and Caicos?

Together, both companies provide electric power in Turks and Caicos to over 15,000 customers and are regarded as one of the most reliable electricity providers in the Caribbean. FortisTCl offers customized energy audits to help customers achieve greater energy efficiency and savings.

Who owns the electricity in South Caicos?

Separately, Atlantic Equipment and Power (AEP) acquired an exclusive license for South Caicos which is due to expire in 2036. For the Turks Islands of Grand Turk and Salt Cay, electricity generation was run by Turks and Caicos Utilities (TCU), a government-owned entity.

Where can solar power be installed in Turks & Caicos?

Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects. Several local companies specialize in both supply and installation of alternative energy systems. The FortisTCl electricity plant on Providenciales.

How much does electricity cost in Turks and Caicos?

The 2015 electricity rates in Turks and Caicos are \$0.29 per kilowatt-hour (kWh), slightly below the Caribbean regional average of \$0.33/kWh. Like many island nations, Turks and Caicos is almost 100% reliant on imported fossil fuel, leaving it vulnerable to global oil price fluctuations that have a direct impact on the cost of electricity.

Who is Turks & Caicos utility limited?

Turks and Caicos Utility Limited serves the Islands of Grand Turk and Salt Cay and was acquired by FortisTCl in 2012. Together, both companies provide electric power in Turks and Caicos to over 15,000 customers and are regarded as one of the most reliable electricity providers in the Caribbean.
